Sri Ganganagar, India

GitHub | LinkedIn | Portfolio

Summary

Experienced UI/UX Designer specializing in creating intuitive, user-centered designs for web and mobile platforms. Skilled in wireframing, prototyping, and responsive design, delivering functional and visually appealing interfaces. Adept at aligning user needs with business goals to enhance digital experiences.

EDUCATION

Surendra Group of Institutions

B.tech Computer Science

CGPA: 7.73

Sri Ganganagar (Raj)

July 2020 - July 2024

EXPERIENCE

E Software Solution | UI/UX Designer

Yamunanagar | Jan 2025 - Present

- Focused on making complex IoT data easy to understand with clear dashboards, status updates, and alerts.
- Designed unified dashboards in Figma to bring Trello, Xero, HubSpot, and Net360 together in one platform.
- Created user flows and prototypes for managing projects, finances, and CRM data seamlessly.
- Designed and developed responsive dashboards for Cyber Security analytics, improving data visualization and user experience.
- Developed a clean and structured UI for an Asset Management System, ensuring seamless inventory tracking.

Sukrut Associates | UI/UX Designer

Jaipur | June 2024 - December 2024

- Proficient in translating complex requirements into elegant, user-friendly designs, ensuring consistency across web and mobile platforms.
- Designed and implemented a Doctor Portal for session booking, enhancing user experience and streamlining workflows for healthcare professionals.

Urban-Chat | UI/UX Designer

Remote | August 2023 - May 2024

- Designed an advanced AI chat and support interface, seamlessly integrating it into web and mobile platforms like Slack and WhatsApp for enhanced user experience.
- Worked closely with the development team to turn design ideas into a fully functional and responsive website.

Apna Konnect | UI/UX Designer

Remote | Jan 2023 - July 2023

- Lead the development of UI/UX design for mobile applications and websites, creating user experience and visual impact.
- Directed high-quality video content for the company's YouTube channel. Conducted user research, usability testing, and stayed updated on industry trends for innovative design solutions.

SKILLS

Wireframing and Prototyping:

Figma, Adobe Photoshop, Adobe XD

Frontend:

User Research, Usability Testing, Interaction Design, Typography, Color Theory

Tools:

Next.js, React.js, Material-UI, Tailwind, Aceternity-UI, Bootstrap, Chakra-UI

WordPress, Git, GitHub, Creatie, Netlify, Render, Hostinger

PROJECTS / OPEN-SOURCE

DiGi-Dot

Figma

- Designed the entire product in Figma, from wireframes to high-fidelity screens, covering both web and mobile views.
- Built interactive prototypes to show real user flows like device onboarding, real-time monitoring, and control panels.
- Created a design system with reusable components, ensuring consistency and faster developer handoff.
- Worked closely with the development team to align the design with AWS IoT Core, Lambda, and API Gateway integrations.

Neura-Bug - Link

Figma, Photoshop

- Designed and developed the UI/UX for NeuraBug, an AI-driven bug detection system, focusing on user-friendly interfaces for monitoring and analyzing logs from multiple cloud services.
- Created intuitive designs and implemented them using Figma, React, and Redux, ensuring seamless integration with bug tracking tools (Jira and ClickUp) and cloud services (AWS, Heroku).
- Coordinated with cross-functional teams to integrate payment solutions and advanced monitoring services, utilizing NLP techniques for effective log analysis and anomaly detection.

Urban Chat - Link

Figma

- Designed the interface for an advanced AI chat and support system, smoothly blending it into websites and mobile apps like Slack and WhatsApp.
- Worked closely with the development team to turn design ideas into a fully functional and responsive website.
