Summary

Product-focused UI/UX Designer with 3.5+ years of experience designing SaaS platforms, AI products, enterprise applications, and dashboards. Skilled in user research, wireframing, prototyping, design systems, and responsive UI using Figma. Passionate about transforming complex business requirements into intuitive, scalable, and user-centric digital experiences.

EXPERIENCE

8ByteSoft Contract UI/UX Designer	Remote Mar 2026 - Present
- Led the product design of a Student Thesis Management Platform by identifying documentation challenges faced by final-year students during internships. Conducted User Research, stakeholder interviews, and workflow analysis to simplify document submission, faculty review, approval tracking, and knowledge sharing. - Transformed complex Procurement Workflows into an intuitive enterprise dashboard by analyzing purchase requests, vendor evaluation, RFQ management, and multi-level approval processes. Designed dashboards that improved visibility and simplified operational decision-making. - Defined User Personas, Information Architecture, User Flows, Wireframes, and High-Fidelity Prototypes to validate product ideas before development and reduce design iterations. - Built scalable Design Systems, reusable UI components, and developer-ready Figma libraries while collaborating with stakeholders and engineers to ensure design consistency across multiple client projects.	
E Software Solutions UI/UX Designer	Yamunanagar Jan 2025 - Mar 2026
- Designed enterprise IoT and SaaS products focused on real-time monitoring, operational dashboards, and data-driven user experiences. - Partnered with product managers and engineering teams to translate business requirements into user-centered solutions through User Flows, Wireframes, Interactive Prototypes, and High-Fidelity UI. - Improved usability of Cyber Security, Asset Management, CRM, and Financial Management platforms by restructuring Information Architecture, Dashboard Layouts, and Design Systems. - Established reusable UI components, responsive design standards, and developer handoff documentation that accelerated implementation and maintained visual consistency across products.	
Sukrut Associates UI/UX Designer	Jaipur June 2024 - Dec 2024
- Designed a Doctor Portal that streamlined appointment scheduling, patient records, consultation management, and dashboard workflows for healthcare professionals. - Conducted User Research, Competitor Analysis, and usability reviews to identify friction points and improve booking flows, navigation, and overall user experience. - Created Wireframes, Interactive Prototypes, and Design System components while working closely with developers to ensure pixel-perfect implementation	
Urban-Chat UI/UX Designer	Remote Jan 2023 - May 2024
- Designed AI-powered conversational experiences for web and mobile platforms, including integrations with Slack and WhatsApp. - Simplified complex chat workflows by creating User Flows, Conversation Patterns, Wireframes, and Interactive Prototypes focused on engagement and usability. - Contributed to mobile and web product design through User Research, Competitor Analysis, Information Architecture, and usability testing.	

SKILLS

UI/UX Design:	User Research, Competitor Analysis, User Personas, User Journey Mapping, User Flows, Color Theory, Information Architecture, Wireframing, Interactive Prototyping, Usability Testing, Design Systems, Dashboard Design, Responsive Design, Low Fidelity Design
Design Tools:	Figma (Auto Layout, Components, Variables, Design Tokens, Dev Mode, Interactive Prototypes), FigJam, Adobe Photoshop, Adobe XD, Framer
AI Design Tools:	Figma AI, ChatGPT, Claude AI, Framer AI, Galileo AI, Uizard AI, Relume AI, Notion AI, Perplexity AI
Frontend Knowledge:	HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS, Material UI, Shaden/UI, Chakra UI, Bootstrap
Product & Collaboration:	Jira, ClickUp, Confluence, Git, GitHub, Miro, Notion, Trello, Slack, Zeplin

GlobalBoard - [Link](#)

Figma, Photoshop, Canva

- Designed a **Community Marketplace Platform** that enabled users to buy, sell, promote services, connect with professionals, and discover business opportunities through a unified digital experience.
- Created end-to-end **User Flows, Wireframes, High-Fidelity Designs**, and responsive interfaces for listings, messaging, subscriptions, contracts, and profile management.
- Built a scalable **Design System** with reusable **UI Components**, improving visual consistency, usability, and seamless **Developer Handoff**.

DiGi-Dot

Figma

- Designed an **IoT SaaS Platform** with responsive web and mobile interfaces for smart device management, monitoring, and automation.
- Created intuitive **Dashboards, User Flows**, and **Interactive Prototypes** for device onboarding, **Real-Time Monitoring**, analytics, and smart control workflows.
- Collaborated with developers to deliver scalable UI aligned with **AWS IoT Core, AWS Lambda**, and **API Gateway**, ensuring smooth implementation and developer handoff.

Neura-Bug - [Link](#)

Figma, Photoshop

- Designed an **AI-powered Bug Detection Platform** for cloud log monitoring, helping developers identify and analyze system issues through intuitive dashboards.
- Created **User Flows, Wireframes, High-Fidelity Designs**, and reusable **UI Components** to simplify complex monitoring and debugging workflows.
- Enhanced **Data Visualization**, anomaly detection experiences, and collaborated with developers on integrations with **Jira, ClickUp, AWS**, and **Heroku**.

Book Room – Thesis Management Platform

- Identified the challenge of scattered thesis records and the difficulty students face while searching for previous academic projects.
- Designed a structured information architecture to make thesis discovery, uploads, and project management simple and organized.
- Created user flows, wireframes, and interactive prototypes in Figma for both students and faculty members.
- Simplified the thesis submission and review process by reducing unnecessary navigation and improving task flow.

EDUCATION

Surendra Group of Institutions
Sri Ganganagar (Raj)
B.tech Computer Science
July 2020 - July 2024
